

Endoscopic Spine Surgery Video Symposium

*It was one of those March days when
the sun shines hot and the wind blows cold.*

— Charles Dickens

Hello, Spine Warriors in the Universe!

The day comes on one of those March days.
It is a very special and memorable history for
Endoscopic Spine Surgery
to open a new way to the Spine World.

Absolutely we are together to
discuss about and find precious solutions
of Lumbar Disc Herniation under
Endoscopic Spine Surgery.

March forward to save innocent patients and
write a history in your noble life.

In this March, 2019 will change the world of
your mind and fire up hope of your heart.

The truth is on the march and nothing will stop it.

— Emile Zola

Fellow Warriors, March in Busan!
